SANTA FE IN LONDON.

Very few publications afford so much pleasure to the reviewer as those that tend to disseminate a more accurate knowledge of this country abroad, and more especially in England. Various pamphlets have been published on the Argentine Republic of late in Italy, in France and even in Germany, and, for all we know, Colonel Lucio Mansilla may be preaching in the Swedish language in the Scandinavian peninsula. From one cause or another, if we except Mr Parish's work and that of Consul Hutchinson, few publications have been issued in England throwing any fresh light on this country. When Dr Lucas Gonsalez left the province of Santa Fe several months ago for London we anticipated much from his visit, but certainly did not expect to read such an able pamphlet as that drawn up by his secretary, Mr Alexander Hume. The printing, the paper, the information and style of the pamphlet are in every way superior and speak volumes for the ability of both Mr Gonsalez and Mr Hume. In fact, people who live in this country and know the republic derive valuable information from the varied contents. Mr S. Andrieu published a similar work in Paris, but it lacked the general usefulness of the present one and was issued more for the sake of private interests than those of a province. One of the most striking features in Mr Hume's pamphlet is the colonization law, a most valuable addendum to any work of the kind. As regards his views on the future of Santa Fe we consider them free from the faintest exaggeration. The importance of the province grows with every Italian steamer that anchors in the Outer Roads: every fresh Italian emigrant is an active element in the progress of Santa Fe. The Clark concession, the Central Argentine Railway and the new projected Candelaria Railway are so many arteries of progress and guarantees of the future development of that favored province. Rosario alone has a great future in store for it, and the receipts of its Custom House shew a surprising increase every succeeding year. To give our readers an idea of the pamphlet, we reproduce the following introduction to same, and will extract further from its pages from day to day:—

"The following lines have been written with the object of drawing the attention of the general public in Europe to the Province of Santa Fe, in the Argentine Republic, as an agricultural, pastoral, and industrial country, and to the many very great advantages it offers to colonists, for the breeding of animals, the cultivation of all kinds of cereals, and for the manufacture of the native products of the country.

Few provinces in the Argentine Republic have made such rapid strides during the last few years as Santa Fe, and this has been brought about partly by the construction of the Central Argentine Railway, and the formation of its Colonies, but mainly by the unceasing efforts of the National and Santa Fe governments to populate the country with first-class agricultural colonists.

The population thus formed has increased from 19,720 inhabitants in 1849, to 41,261 in 1858, to 48,900 in 1865, to 89,117 in 1869, to 135,000 in 1875, and to 190,000 in 1881; and it will also be shown that not only has the population increased in this extraordinary manner, but the exports and imports, and consequently the revenue of the country also.

The increase of the whole of the population of the Argentine Republic has been not less remarkable; numbering 935,000 inhabitants in 1849, 1,304,000 in 1859, 1,877,490 in 1869, and was calculated at 2,464,000 in 1879 (Census not taken).

The importance of the future of the Argentine Confederation can scarcely be overrated, possessing, as it does, all the elements of wealth and prosperity within itself in a degree not surpassed by any other country in the world.

The vastness of its territory, 1,200,000 square miles, the fertility of its soil, a temperate climate, and a constitutional Government, together with good railways, navigable rivers, roads, bridges, post offices, and telegraphic communication; the richness of its mineral, agricultural and pastoral resources, and especially the cheapness and ease with which land may be acquired, all offer inducements to immigrants which are scarcely to be found elsewhere.

We do not here require to recapitulate what European immigration has done for North America, and confine ourselves simply to mentioning, that from 3,901,897 inhabitants in the year 1790, the population of the United States has increased to 51 millions in 1881, thus making the country the most populated in the world after Russia, China and India.

On account of the increasing density of population and this development on so vast a scale, the difficulties to the colonist become greater and the advantages diminish not because there is not land enough, but because the most favoured and fertile regions are all occupied and being cultivated, and it is often at great sacrifice and cost, that the European obtains, in a far-off place, under great perils and an unhealthy climate, a piece of land on which to settle, and which he can call his own. If he goes to the large centres of population, he only finds what he has left in the old country, viz., over-population, over-work, and insufficient remuneration.

None of these fears need trouble the immigrant to the River Plate.

The area of the United States is 3,603,844 square miles and the population 51 millions, or 14·15 inhabitants per square mile; the area of the latter country is 1,200,000 square miles, with a population of 2,877,228 or 2·40 inhabitants per square mile, thus shewing that the United States are six times as densely populated as the Argentine Republic.

The immigrant will, therefore, find in the latter country a greater extent of territory per inhabitant, greater facilities for entering into possession of his land, a temperate climate, a black virgin soil of excessive fertility, a greater variety of lands and products; in fact, a career opened to him under the most favorable circumstances, either as an agriculturist, a breeder of cattle and horses, a miner, manufacturer, mechanic, or labourer.

LONDON LETTER.

(From our own Correspondent)

THE LIBERAL CAMPAIGN.

October 28th.

Some fifteen or twenty columns of the *Times* have, within the last two or three days, been filled with the speeches of Mr. Chamberlain at Liverpool, whose first address in that city I noticed in my letter of the 26th instant, and with the speech of Mr. Gladstone at Knowsley, addressed to the Liverpool Liberal Association, and the speeches delivered at Reading by Mr. Shaw Lefevre, and by Lord Dalhousie and Mr. Barter at Dundee. The plain speaking of Mr. Chamberlain continues to excite great interest in political circles. In some respects Mr. Gladstone has imitated his Radical colleague, and in his remarkable speech, addressed to the merchants of Liverpool, he has foregone all temptation to 'preach,' and has delivered a vigorous but straightforward epitome of the Irish question, and a fair and practical defence of the Government.

You may, I think, take it for granted that Mr. Chamberlain's speeches in Liverpool have not only raised that gentleman to the niche of fame, or political importance, he was gradually approaching, but they form a new departure in English politics.

You must never lose sight of the fact that with ordinary English men Irish questions are in a certain degree questions of foreign policy, and that the special interest recently taken in the affairs of the Land League was due to its ultimate bearing on similar questions in this part of the country.

Hence, you will observe, that our great political weathercock, the *Times*, has within the last day or two assumed a sneering, if not hostile, attitude towards the Government, and in a less degree it is followed in the same strain by the *Daily Telegraph*. Now, it is impossible to comprehend this without considering personal questions. Mr. Walter, the principal manager and director of the *Times*, was born as far back as 1818. He is scarcely of this generation. His name is honoured in English history. It was his father who raised the *Times* newspaper to its present proud position, and it was his grandfather who in 1788 published the first copy of that celebrated journal.

As the late Lord Lytton used to say, 'it takes three generations to make a gentleman.' Mr. John Walter is of the third generation, a Berkshire squire and a much-esteemed and, in an old-fashioned way, a liberal-minded, pragmatical and dogmatical English gentleman. But that golden and sacred chaplet so much courted by our countrymen, is at least within a measurable distance of Mr. Walter's brow. It is not in human nature to suppose that any of us, under similar circumstances, would countenance doctrines that might impair the lustre of the coronet, or the territorial influence it represents.

Mr. Lawson, of the *Telegraph*, if his ambition be more modest, is also a worthy candidate for those social honours which with some of us are the highest reward in this life.

Providence will, doubtless, so temper the cold air of reform to the shorn landed proprietors, that those honours or titles will be preserved to us, and thus will separate us from the ordinary herd. Mr. Lawson has been some time in negotiation with the Duke of Westminster for the purchase of that wooded land marvel on the banks of the Thames known as Cleveden Park. The Duke, as you will know, thought £300,000 a fair figure for an estate of such beauty and celebrity and sacred to the memory of the late Duchess. Mr. Lawson offered £250,000. To-day we hear that the two gentlemen have split the difference and that the purchase has been effected at £275,000

It is not surprising, under these circumstances, that if a peer or esquire who, weary of heraldic devices and of his own family tree rooted in the annals of the Conquest, or before it, can afford to be a Radical, other men to whom these baubles are fresh should be more sensitive, and that we should read in the *Times* of yesterday, after all that has been written from Blakstone to Adam Smith, and from Stuart Mill to the Blue Book, in which British Consuls and Ministers abroad almost unanimously concur in the condemnation of the English land laws, that 'practically primogeniture and entails do not affect any appreciable proportion of English and Scotch landed estates, and limited ownerships so far as it depends upon mortgages and settlements cannot be abolished by any change in the law.'

I am not going to trouble you with this question at present, but it may be mentioned that we were accustomed to be told by similar authorities to the *Times* that entails in this country no longer exist. We all know what is meant, and the very simple answer is this—'if primogeniture has no appreciable effect, and if entails are so manipulated that practically they do not exist, 'what is the objection to removing so much of either as may be thought to exist?' On the face of your interlocutor, in stammering out his answer, you will see the pale cast of hatred of that struggling crowd on the rungs of the ladder beneath him, of the self-assurance of self-made men' and of any approach to social equality. As for mortgages, I read in one of the works of that now eminent statistician, Mr. M. Mulhall, that 'the amount of mortgages in 1876 was found to be 58 per cent. of the total value.' That is to say that the mortgages absorb more than half the landed revenue of the kingdom, whilst in France, under the much-abused system of subdivision of landed property, the 'total mortgages on rural property do not exceed £150,000,000.' That is to say, about 6 per cent. of the rota value of agricultural property.

Speaking of France Mr. Mulhall says—'Meantime, the subdivision of land has already begun to bring about its own remedy, the agriculturist population having diminished 3,509,000 since 1851.'

That diminution cannot be due to the sub-division of land; in fact, the old objection to the system was the fear of over-population. Besides, in England, under a different system, the diminution of the rural population has at different periods been in a much greater ratio than in France,

The old-fashionsd views on the land question in England, which Mr. Mulhall favours, are undergoing a complete change. What the reasoning of political economists failed to accomplish, seven years of lean kine have effected.

QUARANTINE.

The National Board of Health have issued the following regulations respecting quarantine this summer:

1—From the 5th inst. a quarantine of observation is established on vessels from Brazil and other ports where no sanitary precautions, or insufficient ones, are taken to preserve health.

2—Steamers and sailing vessels shall remain one day in observation at the anchorage chosen for them. Those sent to the 'fondeadero de rigor' shall undergo —— days quarantine. (Time not yet determined).

3—All ocean going steamers and vessels shall anchor near the pontoon Vanguardia, no matter to what port of the Republic they come consigned. They will there await the visit of the Port Doctor, who will select their anchorage if they have to undergo quarantine.

4—All vessels entering port must fly the quarantine (yellow) flag.

5—Should any person fall ill on board a vessel in quarantine, the pontoon must be advised by running up the quarantine flag at half mast.

6—All small craft are strictly prohibited from going alongside, speaking to, or anchoring at less than 400 meters from any vessel that has not been visited by the doctor and received entry. This regulation also applies to all vessels in quarantine.

7—Neither can any craft anchor at less distance than 400 meters from the observation anchorage ground and 600 from the 'fondeadero de rigor' (quarantine ground).

8—The craft carrying provisions to or from vessels in quarantine shall call at the pontoon for a Health official who will direct the precautions to be taken.

9—All steamers that arrive shall consider themselves as in quarantine and keep the yellow flag flying until the Port Doctor goes on board.

10—The rule embodied in the foregoing article is also obligatory for sailing vessels, which must wait till the Sanitary Delegate goes on board, and verifies their health papers from last port, which the Captains must produce in the Department when they land.

11—Captains and Masters of both ocean and coasting craft are bound on arrival to inform the Health Delegate on board the pontoon if there be any sickness on board their vessel, or had been during the voyage.

12—Any vessel that has not a clean bill of health from her last port shall be placed in quarantine during the pleasure of the Health Board, independent of the fine hereafter set forth.

13—When the numbers of crew and passengers in the bill of health do not agree with those on board, the vessel shall be placed in quarantine till the discrepancy is explained.

14—Vessels in quarantine must keep the yellow flag flying permanently.

15—Craft engaged in loading or unloading vessels in quarantine must take orders from the Sanitary Guards.

16—They must also keep the quarantine and health certificates issued by the Sanitary Guards and the commander of the pontoon Vanguardia.

17—Neither corpses nor sick people can be landed without permission from Health Department.

18—For infringement of any of the foregoing regulations a fine of 50 hard dollars will be inflicted, in addition to the penalties already provided by law.

EDITOR'S TABLE.

The increased temperature and a hot telegram from Patagones announcing that the Indians had paid that town a visit and carried off some mares and cattle were the chief 'novedades' yesterday morning. The telegram created quite a sensation amongst the passengers of the Villarino and took some of the sweetness from the sorrow of parting with the friends who went down to the Boca to see them off. The invasion does not, so far as known, appear to have been attended with any bloodshed, but it shows that the savages are still masters of the situation in the far South, and may commit all kinds of atrocities before the reinforcements on board the Villarino can arrive. We hear, however, that the most energetic operations against them have been planned and ordered at the War Office, and before the summer is over they will probably be wiped out for good. We hope so.

An account of the recent amateur theatricals and ball at Chascomus last week will be found in our Supplement to day: also an important letter in reference to the Public Schools.

The Pacific steamer Galicia brings awful news of Indian atrocities in Chile; fire and lance everywhere, and from 500 to 1000 people butchered.

President Roca and his family will go to Ramos Mejia on Monday next for the summer.

Some misapprehension having arisen as to the distribution of tickets to the 'parents' of the children of the Scotch School, for the pic-nic tomorrow at Palermo, we are requested to say that the word applies not only to the fathers and mothers of the little ones, but to those who contribute hampers, and the members of the Scotch Congregations.

We received a courteous invitation yesterday to the examinations at Mr Adolfo Negrotto's well known Seminario Ingles in Calle Cangallo: one of our foremost educational establishments. The academical trial will commence to-morrow, 8th inst., at 8 p.m.

Those who have friends or freight on board the Pacific liner Patagonia need be under no apprehension about her; the weather is fine and by this time H. M. S. Garnet and Sappho, and another steamer from Montevideo, the Fortuna, have probably overtaken her, and the captain sent word that he would keep her on her course under sail till help reached him. The Juez de Paz at Bahia Blanca, when he heard of the accident, ordered the Argentine gunboat Bermejo to go full speed to her assistance, and yesterday morning, before the Villarino left the Boca, President Roca sent orders to Captain Spur to render the Patagonia every assistance in his power. The steamer will probably be towed back to Montevideo. P.S.—The steamer Memphis, which arrived at Montevideo yesterday from the West Coast, met the Patagonia on the 5th under steam and sail. They must have patched up the screw.

The Argentine Horticultural Society has been specially charged with the arrangement of the Floral and Horticultural Department of the Continental Exhibition. A commission has been named, consisting of members of this society, to carry out the programme. Mr Thomas Wilson President; Mr Lorenzo, Mr Basset Secretaries; Mr V Peluffo, Mr Gustavo Hamonet, Mr A Peluffo, and Mr Eugenio Curtoise.

It would take the great 'silent strategist,' Count Moltke, himself to understand the triangular or quadrangulor duel now going on in Peru. The telegrams says:—Colonel Suarez has marched to attack Pierola; one of whose regiments mutinied; Montero has effected a junction with Caseres; Cornejo is marching in the South, and Pacheco threatens Puno and Arequipa; the Bolivian army is in a state of revolt etc. etc. It would require a volume of a West Coast military *Who's Who* to enable us to judge of the promiscuous scrimmage now going on on the Pacific Coast, and puzzle old Zadkiel to predict the wind-up. A ray of light is, however, thrown on the imbroglio by the very important news that the Washington Government has approved the action of Minister Hurlbut, and the Chilian Congress is in secret session on the subject. Sr Balmaceda, Chilian Foreign Minister, admitted to the House that he had his pockets full of claims from the Diplomatic Corps, for loss and injury suffered by foreigners during the progress of this unfortunate Ten Cents War. It looks, however, as if the beginning of the end were at last at hand, although the *Prensa's* telegram says that Sr Balmaceda's answer to the American Minister is that Chile will allow no Government, however powerful, to dictate to her. Whew! This is plucky; but Uncle Sam is a stiff customer to beard.

Half a dozen mishaps have occurred on the Western Railway within the last week, but no fatal result to life followed. One of our colleagues attributes this series of accidents, on a line generally well managed, to too much politics in the Board Room. The old story.

A second edition of Nero. An employee of the Tucuman Railway was dismissed last week for having an unfortunate peon tied down and flogged in the most unmerciful manner. While the victim shrieked for mercy the ruffian employee got his fiddle and performed several lively airs!! Dismissal is a very inadequate punishment for such a wretch; but this abuse of authority is racy of the soil and by no means confined to petty railway Jacks in office.

We have to thank the fair author of the 'Marquesa de Altamira' for a copy of this charming drama, about which we shall have a few words to say in a day or two. We are sorry to hear that it was 'murdered' the other night at the Opera House.

If our esteemed Rosario correspondent's adaptation of 'The Boys and the Frogs' should prove correct, Mr. Parish had a bit of 'Standard luck' in failing to induce the National Government to accept his proposals about the guarantee to the C. A. R.

The police have discovered another case of picking and stealing in the Custom House. It was discovered through an 'individuo' going to Messrs. Rousseau, French merchants, and asking them to put a value on some 'bramante' he had bought for half nothing from a 'sujeto' friend of his. Mr. R. at once recognised that the 'bramante' was his own, stolen from a recent consignment, of which he had informed the police. The 'sujeto' was arrested, and it turned out that he was simply trustee for the master of a lighter, who was at once secured and made a clean breast of it. The value of the stolen goods is not equal to the National Debt.

The 'Jolly Millers' Society met on Sunday and approved their statutes after a gritty debate in which several floury speeches were made.

The news from Rosario yesterday was that reaping is now in full swing at all the colonies, and machines in prodigious demand. The Elevator will be inaugurated in a few days.

Holders of Rio Negro estancias will be glad to hear that the surveys of the Second Section have been finished and the tittle deeds will be the next steps. No lots were found to be in the deep blue sea this time.

There is nothing supernaturally exciting in the way of news from Montevideo. The new paper there, the *Hilo Electrico*, has created no sensation, its telegrams being stale. Santos has sent a circular to the Gefes Politicos, recommending them to look a little sharper after the safety of life and property in their respective districts.

Tandil has been shocked from its propriety by the disappearance of the Public Valuator with $58,000 m/c.

Marie Antoinette tomorrow night at the Politeama, by the Tessero company, will be a grand theatrical event. The dresses, decorations etc are, we hear, something wonderful. Tessero plays the unfortunate 'Autrichienne', Bertini her weak husband Louis XVI., Biagi Lafayette, Mariotti the Princesse de Lamballe, Bonaffini Madame Royale. The drama is painfully realistib and created an unprecedented sensation in Rio.

Viva! We can score one for the Fourth Estate at last. Miss Millis, the richest heiress in the U. States (125,000,000 hard dollars, equal to £25,000,000) has just married, or is about to marry, Mr Caird, a correspondent of the *New York Herald*. Our feelings quite overpower us in contemplating a newspaper man with such a colossal fortune. Gordon Bennett will be completely snuffed out in a money point of view by his own correspondent. If our deeply esteemed colleague (esteem is, perhaps, too placid a feeling for a man worth 25 millions sterling) was not born with a silver spoon in his mouth, and few newspaper writers are, he has got a tolerably big gold one stuffed into it now.

We cut the following three paragraphs from the 'Gossip' column of a recent exchange. The first will certainly interest our lady readers: 'Patti has had a plush dress made for her, the trimming of which consists of embroidered leather. We may, therefore, expect to see a new departure in ladies' dress, and to hear, before long, of a rise in leather.

'Another proof of the truth of the popular notion that annuitants are exceptionally longlived is afforded by the circumstance that over £100 is still paid in pensions to servants of Queen Charlotte, who died sixty-three yearsago, and £10 to a surviving attendant of George III.

'The Princess Dolgoronki has been staying in Paris for the last fortnight. She leaves next week to pass the winter on the Riviera; the mild emotion of roulette and 'trente et quarante' being expected by her medical advisers to be likely to assuage her grief for the loss of her husband.'

Forty Belgian emigrants have arrived in the Rosse, for Mr Schepens's colony. There are no better or more industrious settlers for a new country than 'les braves Belges', who are generally first class farmers.

Gualeguaychu must be a nice quiet quarter to live in. Every man, woman and child in the place keeps three dogs; at least so the local paper says, and it ought to know.

We salute our esteemed colleague Mr. Conrad Lagos, editor of the *Capital* of Rosario, who is in town for a few days.

A new colony has been started near Bahia Blanca. The Villarino took down 29 French immigrants, to start the settlement which will be called, we believe, the Gambetta Colony.

The Tierra del Fuego Expedition will start in the Cabo de Hornos on Sunday next. They would have started before but that there was something rotten in the state of the corned beef, or other supplies, sent on board.

The Finance Committee of the Provincial Senate have reported favourably on Mr. Lloyd's proposed railway from San Nicolas to Junin.

H.R. Highness the Prince of Wales is a prodigious favourite in France. The 'Album de la Comedie Francaise,' a book just printed in Paris, has been dedicated to the Prince by Alexandre Dumas. Oriosette's is the first portrait and signature in it. She wrote—'The best way to chase an idea out of one's head is to ask to have it written.'

QUARANTINE.

The National Board of Health have issued the following regulations respecting quarantine this summer:

1—From the 5th inst. a quarantine of observation is established on vessels from Brazil and other ports where no sanitary precautions, or insufficient ones, are taken to preserve health.

2—Steamers and sailing vessels shall remain one day in observation at the anchorage chosen for them. Those sent to the 'fondeadero de rigor' shall undergo —— days quarantine. (Time not yet determined).

3—All ocean going steamers and vessels shall anchor near the pontoon Vanguardia, no matter to what port of the Republic they come consigned. They will there await the visit of the Port Doctor, who will select their anchorage if they have to undergo quarantine.

4—All vessels entering port must fly the quarantine (yellow) flag.

5—Should any person fall ill on board a vessel in quarantine, the pontoon must be advised by running up the quarantine flag at half mast.

6—All small craft are strictly prohibited from going alongside, speaking to, or anchoring at less than 400 meters from any vessel that has not been visited by the doctor and received entry. This regulation also applies to all vessels in quarantine.

7—Neither can any craft anchor at less distance than 400 meters from the observation anchorage ground and 600 from the 'foudeadero de rigor' (quarantine ground).

8—The craft carrying provisions to or from vessels in quarantine shall call at the pontoon for a Health official who will direct the precautions to be taken.

9—All steamers that arrive shall consider themselves as in quarantine and keep the yellow flag flying until the Port Doctor goes on board.

10—The rule embodied in the foregoing article is also obligatory for sailing vessels, which must wait till the Sanitary Delegate goes on board, and verifies their health papers from last port, which the Captains must produce in the Department when they land.

11—Captains and Masters of both ocean and coasting craft are bound on arrival to inform the Health Delegate on board the pontoon if there is any sickness on board their vessel, or had been during the voyage.

12—Any vessel that has not a clean bill of health from her last port shall be placed in quarantine during the pleasure of the Health Board, independent of the five hereafter set forth.

13—When the numbers of crew and passengers in the bill of health do not agree with those on board, the vessel shall be placed in quarantine till the discrepancy is explained.

14—Vessels in quarantine must show the yellow flag flying permanently.

15—Craft engaged in loading or unloading vessels in quarantine must receive orders from the Sanitary Guards.

16—They must also keep the quarantine and health certificates issued by the Sanitary Guards and the Commander of the pontoon Vanguardia.

17—Neither corpses nor sick persons can be landed without permission from Health Department.

18—For infringement of any of the foregoing regulations a fine of one hundred dollars will be inflicted, in addition to the penalties already provided by law.

VALUE OF PAPER-MONEY.

From Nov. 30th, and until further notice the National Offices will receive the Notes of the Provincial Bank for their written value.

EMILIO CIVIT.

ON 'CHANGE.

December 6th 1881.

Patacons	25.05
Cedulas A	99½
Do B	86½
National Bank Shares	114

Gold is firm at 25.05, and there is an impression in the market that as the gold flows to the vaults of the Bank, it will rise with the requirements of the market: the absorption of the current gold may lead to this, and the Bank has already received over a million pats specie for paper at par; at the end of the month alone, the exchange of paper for gold in the bank amounted to over 700,000 pats. It is rumoured that in view of this consideration the Finance Minister and President of the Bank have agreed to sell the gold at 25,05 as fast, as it is deposited at par. The measure is a prudent one. The operations to-day are of the usual tenor and are merely to meet immediate requirements. Time sales rule as usual at 25 10.

Cedulas of Series A and B are hard; more sellers were in the market to-day. Series A holds its own for cash, and on time at 99½. In Series B a reaction was evident and prices rose to 80½. The Government measure is looked forward to, and the sooner the question is definitely settled the better for all parties.

In National Bank Shares there is a stand from underfeeling, and hesitation stamps the transactions. There are many Shares floating in the market but the stock is well sustained, the liquidation shock has sobered the markets; the liquidator collected in yesterday $3,000,000, and there is only a trifle more to get in. Cash sales opened at 110½, and steadily rose to 112; time sales opened at 111, and jumped to 113.

The sales at the ring were—

For cash 22,000 25.05
For Dec. 31st 140,000 25.10
Sales, 162,000.

Cedulas—

For cash A 12,100 at 99½-⅝
For cash B 10,400 80½
For Dec. 31st A 51,000 99½
Sales, 73,500.

Nat. Bank Shares—

For cash 1,104 shares 110½-111-½-112
For Dec. 31st 1,450 shares 111-113
Sales, 2,554.

At afterhours the liquidation occupied the attention of the brokers and it seems there is a hitch owing to the transfer of shares. The operations in the stock were carried on, the tone of the market showing firmness. One sale on time was made at 114. Cash sales were effected at 112½, and for time in general 113½.

The Memphis met the Patagonia under sail and steam: her course was towards Montevideo. We may expect her in soon, as the aid of the Garnet and Sappho will reach her probably to-morrow.

Telegrams from London, under date 3rd December, report a lull in the wool auction and a drop of from ¼ to ½d. in the article as compared with opening rates. Telegrams from Havre announce a flat market, a rather wet blanket on wool.

Hides are offering freely, but no buyers to be found at the prices asked; the saladeros will begin working this week; in connection with the business a failure was consummated.

Exchange was passed to-day at 50d, on the continent rates have slightly given away.

The great topic of the market is the sudden change in the wool market in the last two weeks. A month ago few, if any, entertained the hopes of such a revival as the present one. Advices this morning from Havre state that the stock of R. Plate wool is much reduced and only amounts to about 7,000 bales; yesterday's European telegrams state that the new wools of this season give a yield superior to those of last year, and this accounts for the very great demand in light kinds in this market. The 'pasto fuerte' kinds top the market at prices fluctuating between $90 and 100 m/c per ar. Here we may mention that since the month of October wools in this market have advanced 10 m/c in spite of dear lands and higher freights. And such are the arrivals of wool in the Plazas that 'peones' are the pewes of the time and the 'artistas' are seen bargaining the labor of the 'changadores' in the very Plaza Victoria to discharge the wools arriving in the trains from the Northand West. There is great demand in both Plazas for the 'pasto fuerte' qualities, meantime the French artistas and some German barraqueros are sweeping the middling qualities off the market at prices between $75 and 85 m/c per ar. The inferior qualities are neglected, and it is remarked that the arrival of bad wools in the Once since the last two days is great.

In the Plaza Once a lot of fine, light, pasto fuerte wool of Mr Ramsay, was sold at $100 per arr. The sale was the talk of the market and the wool much admired. A large sale of the same kind was effected by M. Unzue in the Once and at the same price. The activity in both plazas is on the increase, and 'artistas' and barraqueros have both hands full.

The Lucerne has engaged close on 3,000 bales at 3½ frcs and 10 per cent for Havre.

The Ibis sailed for the West Coast last Sunday, taking 1062 boxes, 200 half pipes of tallow and 100 bales of tobacco.

The Salier is completely full; she sails on the 10th for Waterland.

Imports are dull, the stock of fencing wire in the market at present is very large, and cannot be moved off. In Buenos Aires there are 200,000 quintals, in Montevideo 180,000 and in Rosario 40,000; the estancieros will not buy the wire owing to this year's wool prices. The wire on hand comprises German, French and English kinds of all qualities.

There are great complaints against the Post Office. It appears that letters posted after 5 p.m. will not be forwarded to the camp by the first train of the next day, a fact that does not speak much for the efficiency of the department. The safest and quickest way of dispatch is the diligence

The beautiful Pardo park was put up for auction on last Sunday, but there occurred an event unexampled in modern Argentine annals. Usually at Buenos Aires auctions there are plenty of auctioneers, now and then a lance, and often no buyers; but to our knowledge the auctioneer never failed to be present. In the Pardo auction the auctioneer did not turn up, and showed no inclination to break the Sunday-closing movement. The intending buyers spent the hours chatting beneath the hawthorn bushes and amidst the lovely bowers of innocence of ease, silently approving of the moral reform that shall come over auctioneering circles.

We are undebted to Mr. Flanagan, purser of R.M.S. Derwent, for following moms of her voyage:—

The R.M.S. Derwent this day arrived from England via Brazil and Montevideo. Our dates are as follows viz: Southampton 1st November, Vigo 5th Novembr, Lisbon 7th, Pernambuco 21st, Rio 28th, and Montevideo 5th of December. The rather long passage has been caused by several detentions, of weather and cargo; crossing the Bay of Biscay we experienced a very heavy head sea and strong wind; at Lisbon we were detained by cargo, and at Pernambuco also; from that port to Rio we experienced a very heavy head wind and sea, and consequently arrived off Rio late in the night of the 24th. At Montevideo we also were detained twenty-four hours on account of weather. Our passengers for here are Mr J. Laurie of Buenos Aires, and Mr G. R. Brown the representative of Messrs Clayton & Shuttleworth. Sir William Wiseman came out from England to Montevideo, to join H.M.S. "Dwarf", he sails in her to-morrow for the Falkland Islands.

The Sales at afterhours were—

It appears that Messrs Matthey Hnos. expect out next week one of the finest steamers that ever entered the Plate, the new Navarre. This magnificent steamer is an enlarged mode of the La France of the same company, constructed for the passenger service; she will afford plenty of accomodation for over one thousand emigrants. The construction of the Navarre only points to the growing importance of the Italian emigration from the great French Mediterranean harbor. The hegira of Italians is impeded by Government intervention in Genoa, and Marseilles, therefore, suits the Italian emigrant better. What with the war in Tunis, the construction of new ironclads, conscription, and meeting of notables in Vienna, Italians are emigrating in thousands and thousands. Most of these emigrants come to the R. Plate, and their transport will soon call for the construction of several more steamers like the Navarre and La France. We are only sorry that so few of our countrymen come to these favored shores.

The Boca this morning was crowded with passengers and troops leaving in the Villarino for the South. At 8 a.m. nearly all were on board when the telegrams from Patagones in the morning papers spread a glum feeling amongst the party. Part of the 1st battalion of the Line embarked with its respective officers; the men were all dressed in summer uniforms. On board Commander Spurr was ubiquitous, and we noticed among several hundred people General Villegas, Colonels Belleisle, Bernal, Mr D Urquiza and son, Davidson, Kincaid, Rae, &c.; the embankments were thronged with Italians, some starting for Patagones, others bidding friends good bye, and the scene reminded one of the bustle on the Dublin or Havre Quays. The Villarino takes a very heavy cargo, and the holds were too small for all the luggage, furniture, arms and knapsacks. The officers were all in the very best spirits, rather sorry to leave Buenos Aires, but anticipating a speedy termination of the expedition against the Indians; the telegrams of this morning from the South show that the savages are making the very most of the time allotted to them before the beginning of the military movements. The real wonder is that they have not taken the trouble to plunder both Patagones and Bahia Blanca and board the National troops in Choel-Choel; at the present rate there will soon be no horses left for the soldiers.

Soundings are being actively made in Ensenada at Punta Lara, with a view of finding a suitable anchorage for all the vessels of the fleet. The Admiral Brown will be unable to enter before the canal is dredged.

The decree issued by the Government to finish the City Improvement Works has produced a favorable impression, and hopes are entertained that the works will soon be actively pushed ahead. As the summer season approaches people may be prepared to hear new and then of cases like those of Julietta and the Italian orangeman last year. None can rely on the hygienic condition of a city with the present population of 250,000 souls until the works are completed. The smells about some neighborhoods, especially near the markets, are sometimes quite nauseous; and here we beg to protest against the basura plaza in front of the Lacroze Station and alongside of the finest road in the Province. The Municipality should take this matter in hand immediately.

The liquidator had on hand up to yesterday evening over ten millions currency to settle differences in the share market. The total difference will amount to a trifle over this amount, How much more will be got in is problematical. In one instance alone there are close on 200,000 pats involved, and the settlement of same is very improbable.

The following real estate sales are reported:

By Messrs Baltar & Quesada the property Calle Venezuela No. 650, upset price $158,000, sold for $170,000. Buyer Mr J Perdriel.

By Messrs G Gowland & Co. the house 233 Calle Estados Unidos for 130,000 m/c, buyer Mr C Milnas; also a piece of land in Barracas with an area of 20 500 square yards for 105,600 m/c, buyer Mr E Chioso.

By Mr F Bulnes the site Calle Aries 526 for 231,000 m/c., buyer Mr P Castillo.

The shipments of maize to Europe continue; in no former year, we believe, has the export of this cereal been so large. The Emmanuele, Italian barque, takes to Cette 5,504 bags, and the Ital. barque Bombay 8,750 bags to Bordeaux. The accounts from the Sta Fe colonies point to an active export of cereals this year, owing to the great increase in the harvest.

The Fray Bentos saladeros have begun the faena; from 600 to 650 head of cattle are slaughtered daily. The season promises well, and cattle in general both in this Province and in the Banda Oriental are in good condition. Up to the present the activity in the saladeros has not been great, but as the season advances we may expect a great increase in the faena.

Herapath's Railway Journal gives the following paragraph on the Central Argentine Land Company. The proposal of the transfers to be submitted to the Argentine Government, with regard to the land not yet delivered, is important:—

"Central Argentine Land.—An extraordinary meeting was held on October 27 at the offices, Mr. Henry Brockett presiding, for the purpose of submitting to the Shareholders, and, if approved, passing, the subjoined resolution, or some modification thereof, to be added to the existing articles of association: "That the Directors may, if they think fit, at such time or times as they may determine, in each or any current year, declare an interim dividend on the shares or stock of the company to be paid to the members thereof on account and in anticipation of the dividend for the current year, such interim dividend to be payable within one month after the declaration thereof." The chairman stated that at the last meeting, held last July, several of the Shareholders expressed their opinion that it was desirable to pay interim dividends, which the Directors, under the existing articles of association, were unable to do, but the Directors, wishing to meet the wishes of the Shareholders, had called the present meeting for the passing of a resolution altering articles of association, which would require confirmation at a subsequent meeting.—Mr. Morrison seconded the resolution, which was unanimously agreed to. In reply to a question, the chairman stated that he had no information to give them beyond what was afforded at the last meeting. The Company was making progress. Mr. Brodhead, their excellent manager, left this country on the 9th inst. to resume his duties in the Argentine Republic. A memorial would be presented by Mr. Thompson to the Argentine Republic asking for the transfer to the Company of the 300,000 acres of land which they had not yet received.

"Tramways.—Anglo-Argentine Debenture Stock has fallen 6; City of Buenos Ayres Shares, ½; Edinburgh, ½; and Tramways of Germany, ½. Sheffield, Southampton, and Sunderland are all ½ better."

From our London exchanges we extract the following:—

"The money market has become easier during the week, and for the present the fears of a further advance in the Bank rate have been greatly allayed. The New York exchange has at last begun to move upwards, and, should the present rate of 4.80½ dollars be maintained, the gold drain to America may be considered to have terminated. There is still, however, no certainty on this point, and much must depend on the action of the new Secretary to the United States Treasury. Mr Folger is evidently no experienced financier, and his policy may consequently prove unduly conservative. The Paris 'cheque' exchange was quoted to-day only 25.21 francs, or close upon the gold-exporting point from this side; but it is expected that a rapid recovery will ensue soon after the turn of the month, when the payments to the Bourse by this market are concluded. The Bank of Belgium has raised its rate of discount from 4, to 6½ o/o, but at other Continental points the value of money remains much as it was a week ago.

"The latest quotation yesterday for the discount of three months' Bank Bills was 4-4½ o/o, and for day to day loans about ½ o/o."

CHASCOMUS

THESPIA AND TERPSYCHORE

Dear Sir,

It is almost with a feeling of regret that we take up our pen to write a few words about the Amateur Performance and Ball which took place at Chascomus on Friday the 2nd inst. And why regret? Because, alas, it is all over, and here we are, back again in this oven of brick and mortar, The scene of our daily toils.

On first entering the large Hall where the performance was to take place, nobody could fail noticing what trouble the Chascomus Amateurs must have put themselves to, to arrange everything so perfectly. The walls were tastefully decorated with flags of all nations, and everything was in faultless order, The concert began at 9 o'clock, though the time announced was 8½ o'clock. If, however, any of the audience were impatient, nobody showed it, and we were all put into a thoroughly good humor by hearing Mendelssohn's wedding march struck up on the piano. This, we consider, was the best piece of the evening, as it was played in a masterly manner by Miss C Bell and Miss Ponson, both of which young ladies not only possess an excellent touch, but also know how to throw their whole soul into the music,

A prologue, cleverly written by the Rev. Mr Ferguson, was then read by Mr N Auld. We were somewhat startled when we heard the following words read with great pathos

If Cupid send his arrow
Some tender heart to harrow
We counsel them to marry
No longer pine or tarry.

We thought there must be some mistake there, as what could be expected from such a crowd of belles? We should certainly have to turn Mormon to follow the advice. It would be too much to detail all the pieces we heard that night, but among others we must mention that by Mrs Hume, who gave us several selections from 'Faust on the piano, which might have been too long but for the brilliancy of the fair performer. The songs, by the gentlemen, were, without exception, good, especially 'Kathleen Mavourneen' sung by Mr A. Auld, the possessor of a sweet-toned, though not over strong voice. Both Mr Vital's and Mr Letellier's songs would have been more appreciated had they kept to the same piano, but the accompaniments were thoroughly executed on the old one, which was decidedly out of tune. Mr Garland evidently knew what he was about when he undertook the Burlesque Variations, as he kept the audience in a continual roar and was twice encored.

The 2nd part of the programme was entirely taken up by the well-known farce 'The Area Belle.' Tosser (the soldier) was excellently rendered by Mr H J Garland, Pitcher (the policeman) had a decided local get up, but bravely sustained his part throughout. Mr Jones made a good specimen of the English milkman, and played his role admirably.

We were sorry to see no ladies were found to volunteer to act, as they would have added greatly to the charm and success of the piece, but we hope next time to see some of the fair sex tread the Chascomus boards.

However, Messrs A. Auld and Thompson filled the respective parts of Penelope and Mrs Croaker as well as could be expected. On the whole, we can congratulate the performers on a grand success, after coping with great difficulties, such as riding 8 leagues for a rehearsal! The scenery and drop-curtain, we hear, were painted by Mr A Auld, both of which were quite worthy of a professional artist.

The ball, which took place in a saloon up-stairs, was a decided success.

Did we wish to describe the Chascomus belles who were present, we should have to summon up Shakespeare and all the tribe of poets from the other world, and we doubt if even they would be able to do justice to the fair ones we saw there that night. We had heard that the saloon was very rickety and dangerous, still it must have been safe enough, as nearly 200 people were present, and no accident happened. When A Highland Fling was started it was rumored that the floor groaned aloud, and bent considerably, but we didn't notice this, having as partner the fairest of the fair, and thus being completely resigned to our fate.

An 'incidente' was nigh occurring. A belle had engaged about 12 or 14 (poco mas or menos) young men for the same dance. We happened to be among these, and as we joyfully went to claim our fair partner, we found her surrounded by a troop of tall handsome campmen. Of course we had no chance, and had to give way to a six-foot-four Scotchman (the Chascomus young men average that height). However, we received amends later on.

The refreshment bar was well attended by MrsBurnett and Mrs Jackson, who were kept hard at work all the time.

Among the fair ones present we might mention many well known names, such as the Misses Burnett, Bell, Miss Jackson, Miss Ryan etc, also many native families, such as Reynal's, Arenaza's, Arias' etc.

The ball broke up at a little after five in the morning, when everybody went to their respective homes, after a splendid evening's amusement and enjoyment.

Long may the united society of Chascomus flourish.

Yours truly

THE PUBLIC SCHOOLS.

Buenos Aires, Dec. 5th 1881.

To the Editor of the *Standard*.

Dear Sir,

The examinations at the Public Schools have just concluded, and I, as a looker on, wish to say a few words concerning them.

It is well known that a great prejudice exists in the minds of many, against the above named schools, I think, without reason.

Many fancy the teachers are incompetent. This I can affirm is not the case; they are well grounded in everything they teach; it seems to me there is scarcely a branch of education that they are not acquainted with. Grammer, Arithmetic, Geometry, Algebra, Botany, Anatomy, Music, &c. &c. they are thoroughly well up in all and many more branches also; this was shown by the examinations being conducted orally; no books were used. The system of education is good; the pupils, having object before their eyes, cannot fail to learn what it is intended to teach them. Many think the education imparted is superficial; if so, the teachers are not to blame. If seed be sown on barren ground, surely they do not deserve censure.

It was quite refreshing to hear little things of eight or ten years of age answering questions in Geometry, Arithmetic, Music and various other branches in such a manner as would put older persons to the blush. English and French are taught in a very few of the schools; more is the pity; those languages ought to be taught in all the schools, being the most useful in the world; as a proof they can be learned, the English and French classes passed with credit to themselves as well as their teachers.

I would like to see the spelling book more in vogue of course there is plenty of dictation &c.

I saw a great deal of very beautiful fancy work, but plain sewing was conspicuous by its absence; this is a great mistake, all girls ought to learn it; it would be far more advantageous in years to come than all the embroidery in the world, surely it would be much better for a girl to be able to make a shirt than work a foot-stool.

I am afraid from what I heard, the teachers are not so well paid as they ought to be considering their arduous duties; many are apt to think teaching a pastime; let them try the experiment on their own children. I maintain that all efficient teachers ought to be well remunerated; where will you find a greater friend to youth than the teacher?

The community at large owes a deep debt of gratitude to Mr. Sarmiento as being the founder and supporter of education; he is one of the greatest civilizers of the world, and in future years thousands will bless his name when he can no longer hear their praises.

I am

Yours truly

Looker-on.

Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.
Matron and Professor of French and Music—Miss Finneran.
English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, £30.

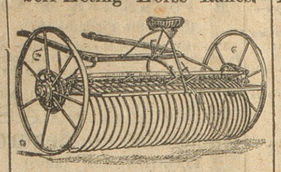
HOWARD'S CELEBRATED MACHINES

Howards' Self-Acting Horse Rakes.



The above were the first Self-acting Horse Rakes which secured public favour, and owing to their extrordinary success various attempts have been made to imitate them, but J. & F. HOWARD's simple brake principle—Patented—is so instantaneous in action, that all the contrivances introduced by others for effecting the same object are in comparison but complicated expedients.

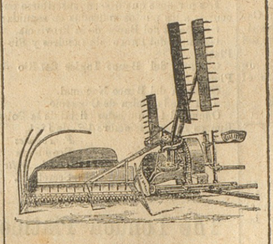
OOOO, 22 teeth, 52in. wrought wheels, 10 feet wide, weight 6 cwt.

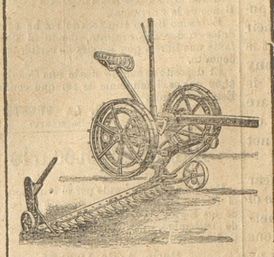
Howard's New Patent Simplex Mower.



J. & F. HOWARD's Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. HOWARD's patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt.

Howard's New Patent Simplex Reaper.



J. & F. HOWARD's Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

With two Knives, Seat and Tool Box, containing all requisites for use in the field, weight 10½ cwt

The above Machines kept in Stock by the Principal Hardware Merchants.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d.; boxes, 6d. and 1s. each. (a)

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

—o—

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
